Chantilly, VA 20151

Dear Mike,

Please accept this as our thank you for jobs well done. We are so very pleased with our new hall and master bathrooms, Susie's new walk-in closet and our refinished patio. Not a day goes by when we aren't telling each other how much we like the changes. We realize that without your guidance, recommendations, and great crew to do the work, none of this would have been possible.

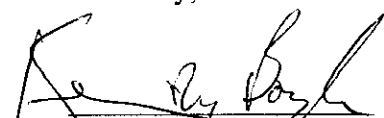

Speaking of your crew, we are glad to know George is still with you, as well as all the others. Please thank George for the quick fix on those two minor items recently.

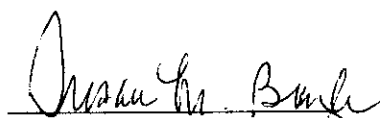

We have recommended Enterprise Contracting to several of our friends and do hope they use your services. We would recommend you to anyone interested in getting quality home improvement accomplished and you are welcome to use this letter if so desired.

Every day we see our granite vanities, new bathroom cabinets and jet tub, it brings a smile to our faces. Susie is also finally closet-organized. Working with you and Enterprise was one of the best investments we have made in our home! We certainly look forward to working with you again on future home improvement projects.

Thanks again, Mike!

Sincerely,

Kevin M. Boyle
